

Vaping: A New Generation of Nicotine Addiction

Join Us:

Thursday, November 29th, 2018

Location:

The Pompton Lakes High School Library

44 Lakeside Avenue

Pompton Lakes, NJ

Time: 7:00PM

This event is open to all faculty members, parents, and members of the community of Pompton Lakes.

This workshop will provide information on electronic nicotine delivery systems (ENDS) that will explain the functions, modifications, and toxic aerosol of these products. Nicotine and other ingredients in the e-liquid will also be analyzed, along with the new emerging trends. Take a look into what the FDA and the state have done in terms of policy. Cessation resources and materials for school officials and parents will be provided. Additionally, there will be tips for parents to discuss ENDS use with their teens. At the end, participants will have the opportunity to examine different vaping devices and e-liquids.

Presenter: Cristina Martins, Health Educator from the Southern New Jersey Perinatal Cooperative
